Figure 1: Schematic diagram of the experimental setup. The top part shows a side view of a participant sitting at a table, looking at a screen. A red line indicates the line of sight from the participant's eye to a target on the screen. The bottom part shows a top-down view of the screen, which is a grid. A red line starts from a point labeled '1' and ends at a point labeled '2'. A red circle is drawn around point '1'.

The diagram shows the plan view of the BA04R robot arm. It includes a coordinate system with origin O at the center of the base. The x-axis points towards the top-right, and the y-axis points towards the bottom-left. Dimensions are indicated by blue arrows: a vertical distance of 3.77 from the x-axis to the top edge, a horizontal distance of 3.27 from the y-axis to the left edge, and a horizontal distance of 2.97 from the y-axis to the right edge. A dashed circle with radius R=1.8 is centered at O. A shaded rectangular area represents the workspace, bounded by solid and dashed lines.
